MEETING COORDINATED BY

REMINDER ON MEETING LOCATION

With the growth of the meeting over the years it has become increasingly difficult to hold evening services in our church building. We are making arrangements this year to use a facility for evening services that will seat 400+. It is located in the same school building that we have been using for our hospitality events. Lord's day morning services will be held at the church building. Please see accompanying letter for more details and for a map. Please visit our web site or call one of the brethren below for updated information.
